Supporting Webflow Customers in their transition away from Logic

Webflow Logic Deprecation:

Webflow has [announced that they will be sunsetting Logic](#) —their native workflow automation tool— on June 27, 2025.

If you are a Webflow customer impacted by these changes, Make is here to help you transition your Logic flows. As a close partner of Webflow, Make offers a powerful and flexible platform to support your automation needs.

Exclusive Offer for Webflow Users

To help Webflow Logic users with their transition, Make is extending an exclusive promotion:

[2 months of the Make Pro Plan for FREE, including 20,000 operations per month.](#)

This offer ensures you have ample time to explore Make's capabilities and see how it can complement your Webflow implementation and meet your automation needs.

How to Redeem the Offer

1. Sign Up on Make: Using [this Promo link](#), create an account on Make
2. Verify Your Email: Confirm your email address to activate your account.
3. Activate Your Pro Plan Trial: login, and your 2-month Pro Plan trial will be automatically activated.
4. Check Your Subscription Details: View your subscription status and trial expiration date under the "Subscriptions" tab in your Make account.

Note: After the trial, your plan will revert to Make's Free Plan unless you decide to subscribe at the standard rate - [See pricing](#).

Start building and optimizing your workflows today!

Why Webflow Users Choose Make for Automations

1. Seamless Integration with Webflow
- **Comprehensive Webflow Modules:** Automate CMS updates, e-commerce processes, form submissions, and more.
- **Pre-Built Templates:** Simplify setup with workflows tailored specifically for Webflow users.

2. Intuitive Automation Tools
- Visual Workflow Builder: Design workflows with a no-code, drag-and-drop interface that's easy to use and maintain.
- Dynamic Logic and Branching: Build sophisticated workflows that adapt to your unique needs.

3. Extensive Connectivity

- Integrate with 2000+ Apps: Connect Webflow to other tools like Airtable, OpenAI, Google Sheets and Slack for comprehensive automation.
- Custom API Connections: Use Make's HTTP app to connect to virtually any service with an API.

4. Scalable and Reliable Performance

- Designed for Growth: Manage workflows of any size with scalable automation capabilities.
- Comprehensive Support: Leverage Make's detailed documentation, Academy, and supportive community to guide your journey.

Transition to a Best-in-Class Automation Platform

Make offers more robust automation functionality than Logic's feature set, providing the tools to create more powerful, scalable, and connected workflows. From seamless Webflow integrations to extensive app connectivity, Make helps you build automations that grow with your needs and open new possibilities for your business.
